

The greatest gift is HEALTH AND JOY.

Personal contact will not replace anything, but meetings are currently not safe either responsible. Therefore, we decided to support a good cause instead of giving traditional material gifts to our customers and partners.

Through the survey, you and our employees helped us to choose **The Foundation of Children's Cardiac Center**, to which TEMPEST will donate 10,000 euros. We are sure that they will help to improve the comprehensive care of children with heart defects and give them the opportunity to lead a happy and full-valued life. Christmas should belong mainly to children.

*Thank you for your support, we wish you a successful
and especially a healthy new year 2021.*
